DETAILED ACTION

1. The Examiner has carefully considered Applicant's amendment and accompanying response filed June 22, 2006. All previously set forth rejections have been withdrawn in view of Applicant's response.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

****Please insert the following before the first line of the specification: --The present application is a continuation-in-part of Serial No. 09/263845, filed March 8, 1999, now abandoned.--**

Reasons for Allowance

3. Claims 14-33 are allowed.

4. The following is an examiner's statement of reasons for allowance: all previously set forth rejections have been overcome in view of Applicant's response. Furthermore, while Blommer et al. (US 4,989,496) and Fischer et al. (US 4,594,290) are believed to be the closest prior art, they fail to fairly teach or suggest an armor assembly comprising a front panel including at least one armor layer made of poly methyl methacrylate or epoxy resin, wherein said armor layer is slantingly oriented relative to the expected trajectory of the oncoming projectile and being slantingly oriented to the body being protected.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
